Contour™ 2.0 EQ Business Laptop Briefcase - 15.6"

Part Number: K60386EU | EAN Code: 5028252596893

Built for work. Designed for travel.

Mobile professionals need a laptop briefcase that can handle constant travel, heavy equipment and long days without compromising comfort or security. At the same time, organisations wish to choose products that use materials more responsibly - without sacrificing performance or durability.

The Contour™ 2.0 Business Laptop Briefcase is engineered to meet both needs. Its ergonomic design shifts weight closer to the body, while secure TSA-friendly compartments protect devices on the move. The outer material is made using recycled water bottles, turning waste into a durable, hard-wearing fabric built for daily business use.

The result is a professional briefcase that delivers comfort, protection and long-term durability.

- **Specially positioned pockets** evenly distribute weight and balance contents.
- **Constructed from durable 1680D polyester** containing 30% post-consumer recycled (PCR) content, using 50 x 250ml plastic bottles.
- A **padded carry handle** provides an additional comfortable carrying option.
- A **dedicated laptop security compartment** with puncture-resistant lockable zip secures your laptop or tablet from intrusion.
- An **RFID-shielded pocket** helps protect credit cards, passports and other RFID-enabled items from unauthorised scanning.
