

Slim NanoSaver™ Combination Laptop Lock

Slim NanoSaver™ Combination Laptop Lock (Resettable) – Part Number: K60603WW | UPC Code: 0 85896 60603 1

Slim NanoSaver™ Combination Laptop Lock (Serialised 25-pack) – Part Number: K60605WW | UPC Code: 0 85896 60605 5

Slim profile,
broad benefits.

With today's slim laptops featuring the Nano security slot, a typical cable lock head may fit. However, since the laptop itself is so thin, once the lock is attached, the laptop will not lie flat. The Slim NanoSaver™ Combination Laptop Lock is the strongest keyless locking solution that allows ultra-thin and 2-in-1 laptops with Nano lock slots to lie flat and stable.

Features include:

- Slim profile allows laptop to lie flat and stable
- Tough lock head and cable
- One-handed lock engagement
- 4-wheel number code with 10,000 possible combinations (*K60603WW Resettable; K60605WW Serialised*)
- Pivot and rotate cable
- Register & Retrieve™
- Tested and verified
- Made by Kensington, inventor and worldwide leader in laptop security locks
- Five-year warranty

Slim NanoSaver™ Combination Laptop Lock

Slim NanoSaver™ Combination Laptop Lock (Resettable) – Part Number: K60603WW | UPC Code: 0 85896 60603 1

Slim NanoSaver™ Combination Laptop Lock (Serialised 25-pack) – Part Number: K60605WW | UPC Code: 0 85896 60605 5

Allows Ultra-Thin and 2-in-1 Laptops to Lie Flat and Stable

Slim Nano lock head won't raise your device off its surface.

Tough Lock Head and Cable

Verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion and other environmental conditions. Carbon steel cable resists cutting attempts, and anchors to desks, tables and other attachment points.

Unique Lock Engagement

Expanding side "hooks" grab the internal sides of the Nano lock slot, creating a strong connection between the device frame and the lock to resist and deter theft.

Pivot and Rotate Cable Head Featuring One-Handed Operation

Allows for easy and flexible connection and movement.

Resettable & Serialised (Preset) Locks

Resettable locks offer up to 10,000 possible combination codes that can be selected by the user. Serialised locks are supplied with a serial number etched on to the lock head, perfect for large-scale deployments.

Register & Retrieve™

Register & Retrieve™ Online Portal

Lock registration tool that allows administrators to easily manage locks and offers combination retrieval if a code is ever forgotten or misplaced.

Strength Features – Standard Cable Locks

Locks designed and tested to withstand straight and side pull forces of more than 91kgf (200lbf).

Locks designed and tested to withstand side pull forces of more than 181kgf (400lbf).

Carbon steel cable resists cutting forces of more than 453kgf (1000lbf). Sheathing cover offers security and greater mobility while protecting surfaces from scratches.

Cable rotation, lock attachment and lock tip rotation tested to 8,000 cycles.

Lock heads designed and tested to withstand extreme temperatures ranging from -30° to 65°C.

Lock body tested for materials structural integrity. (Drop damage, hard impact, vibrations and corrosion)
