

Universal 3-in-1 2.0 Combination Laptop Lock

Part Number: K63394WW (Resettable) | UPC Code: 0 85896 01121 7

Part Number: K63396WW (Serialised, Pack of 25) | UPC Code: 30085896011416

One lock.
One tip. Broad
compatibility.

Securing a mixed fleet of laptops with different lock slots (standard, nano or wedge-shaped) can force organisations to juggle multiple lock types or rely on locks with swappable tips. Such solutions add complexity, risk lost pieces and may compromise security.

The Universal 3-in-1 2.0 Combination Laptop Lock solves these issues with a true one-tip design that fits all three slot types, requiring no interchangeable parts.

Built with Kensington's trusted quality, the lock delivers robust protection against tampering and theft, simplifying device security deployment for IT teams and ensuring consistent protection across a variety of devices.

- One lock tip fits standard, nano and wedge-shaped security slots
- 360° rotatable head enables one-handed locking from any angle without blocking ports
- Proprietary cleat lock firmly grips inside the slot for a secure hold
- 1.8m (6') cut-resistant carbon steel cable with plastic sheathing
- Resettable 4-digit dial with 10,000 code combinations
- Verified and tested for strength, physical endurance and mechanical resilience
- Free code registration program for lost or forgotten codes
- 5-year limited warranty

Universal 3-in-1 2.0 Combination Laptop Lock

Part Number: K63394WW (Resettable) | UPC Code: 0 85896 01121 7

Part Number: K63396WW (Serialised, Pack of 25) | UPC Code: 30085896011416

One Lock Tip for Any Lock Slot

Innovative single-tip solution fits standard, nano and wedge-shaped security slots without the need to change lock tip heads, offering compatibility with almost any laptop, regardless of brand or generation.

One-Handed Locking and No Port Blocking

The 360° rotating lock head allows you to attach and secure the lock with one hand from any angle - even in tight spaces - without blocking adjacent ports.

Proprietary Cleat Locking

Engineered as an alternative to traditional scissor-style lock tips, our proprietary cleat lock firmly grips the inside the slot for a secure hold. This internal cleat design ensures the lock remains firmly engaged.

1.8m (6') Carbon Steel Cable

Resists cutting attempts and features a plastic sheath that protects desktop surfaces while offering ample length for anchoring your laptop to desks, tables and other fixed structures.

Universal 3-in-1 2.0 Combination Laptop Lock

Part Number: K63394WW (Resettable) | UPC Code: 0 85896 01121 7

Part Number: K63396WW (Serialised, Pack of 25) | UPC Code: 30085896011416

Resettable 4-Digit Dial

Set or reset your personal number code from 10,000 possible combinations.

Register & Retrieve™

Register & Retrieve™

Free code registration allows for quick, easy and secure lookup if your combination is ever lost or forgotten.

Verified & Tested

Each Kensington lock is precision-engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.

5-Year Limited Warranty

Rest assured knowing you're covered by Kensington - inventor of the laptop lock.
