ErgoSoft™ Wrist Rest

Scientifically developed to prevent injury while optimising comfort, Kensington's ErgoSoft Wrist Rests feature an ultra-soft exterior supported by gel cushioning in a variety of styles to accommodate the different needs of mechanical, gaming, slim, or standard sized keyboards and mice. Combining unmatched softness and comfort with ergonomic science, ErgoSoft Wrist Rests are the perfect wrist rests for work and play.

Features & Benefits:

- **Ultra-Soft Feel** with a premium exterior that is supported by gel-cushioned padding to provide unmatched quality and comfort
- **Ergonomist Approved** to provide optimal health, comfort and protection through proper alignment, tailored dimensions, and unique curved design
- **Professional-Level Design** options provide functional and sophisticated low-profile elegance with height and size versatility to accommodate mechanical, gaming, slim and standard sized keyboards and mice

Why Include a Workstation Wrist Rest?

- Carpal tunnel syndrome (CTS) is the No. 1 reported medical problem, accounting for about 50% of all work-related injuries
- CTS results in the second-longest average time away from work (27 days) among major disabling diseases and illnesses
- Employers spend more than 7.4 billion US dollars in workers compensation costs and untold billions on medical treatment, lawyer's fees, hidden costs and lost productivity treating CTS
- Wrist rests minimise the impact of repetitive strain on the hand - typing 40 words a minute equates to 12,000 keys per hour or 96,000 keys per 8-hour day
