

FG123 Privacy Screen for Pixelbook

Part Number: K55699WW | UPC Code: 085896556992

Designed for Google Pixelbook.

Touch screen compatible, the FG123 Privacy Screen for Pixelbook limits the field of vision to +/- 30 degrees so a person off to the side only sees a dark screen. It is easy to install, filters out harmful blue light by up to 30 percent, and uses an anti-reflective coating to reduce glare.

- **Limits viewing angle to +/- 30°** – Hides personal or confidential information from anyone trying to look from the side.
- **Reduces harmful blue light by up to 30%** – Eases eye strain and reduces the chances of blue light interrupting natural sleep patterns.
- **Touch screen compatible** – Allows full access to all features while maintaining privacy.
- **Anti-reflective coating** – Reduces glare and improves clarity.
- **Black frame with camera cutout** – Perfectly complements the design of the Pixelbook.
- **Designed for Google Pixelbook** – Like all Made for Google products, the privacy screen has been tested and certified by Google to ensure compatibility and performance.
