

FG123S Privacy Screen for Pixel Slate

Part Number: K55700WW | UPC Code: 085896557005

Designed for Google Pixel Slate.

Touch screen compatible, the FG123S Privacy Screen for Pixel Slate limits the field of vision to +/- 30 degrees (in landscape mode), so a person off to the side only sees a dark screen. It is easy to install, filters out harmful blue light by up to 30 percent, and uses an anti-reflective coating to reduce glare.

- **Limits viewing angle to +/- 30° (in landscape mode)** – Hides personal or confidential information from anyone trying to look from the side.
- **Reduces harmful blue light by up to 30%** – Eases eye strain and reduces the chances of blue light interrupting natural sleep patterns.
- **Touch screen compatible** – Allows full access to all features while maintaining privacy.
- **Anti-reflective coating** – Reduces glare and improves clarity.
- **Black frame with camera and speaker cutouts** – Perfectly complements the design of the Pixel Slate.
- **Designed for Google Pixel Slate** – Like all Made for Google products, the privacy screen has been tested and certified by Google to ensure compatibility and performance.
