Your Trackball, Your Rules

KensingtonWorks™ Software is software that allows you to customize the functions of each of the buttons found on your trackball. The result is a more productive and truly personalized computing experience. Now you can set your preferred functions or keyboard shortcuts for each trackball button or combination of buttons, adjust the pointer speed and acceleration and do so much more. Best of all, by allowing you to personalize your trackball experience, KensingtonWorks™ Software makes your trackball work the way you do. KensingtonWorks™ is compatible with Windows 7 or above, Mac OS 10.9 or above.
