

MagPro™ Elite Magnetic Privacy Screen for MacBook Neo 13"

Part Number: K54372WW | UPC: 0 85896 04261 7

Built for
Privacy. Made
for MacBook
Neo.

In classrooms, offices, and other shared environments, MacBook Neo users often work with sensitive information that can be easily exposed to visual hacking, creating security and privacy concerns during everyday use.

The MagPro™ Elite Magnetic Privacy Screen for MacBook Neo 13" solves this concern with a magnetic design that attaches securely without adhesives, and can be removed instantly when collaboration is needed. A $\pm 30^\circ$ viewing angle protects on-screen data, while the reversible matte or glossy finish reduces glare and offers a blue light filter for comfortable extended use.

Purpose-built for the MacBook Neo, MagPro™ preserves full device functionality, including full laptop closure, sleep mode, and clear webcam visibility — delivering privacy without compromise.

- Seamless magnetic attachment – requires no adhesives
- Supports full laptop closure, normal sleep mode, and unobstructed webcam use
- $\pm 30^\circ$ viewing angle
- Filters up to 54% of blue light
- Reversible matte and glossy viewing options
- Tested to MIL-STD-810H wipe down standards
- 2-year limited warranty

MagPro™ Elite Magnetic Privacy Screen for MacBook Neo 13"

Part Number: K54372WW | UPC: 0 85896 04261 7

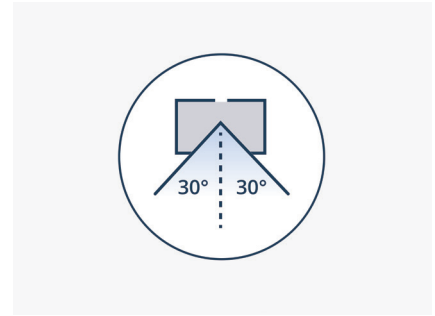

Seamless Magnetic Attachment

Installs in seconds using a precision magnetic design engineered for MacBook Neo's internal frame. No inconvenient and potentially damaging adhesives required. Easily detach and reattach — ideal for shared and managed environments.

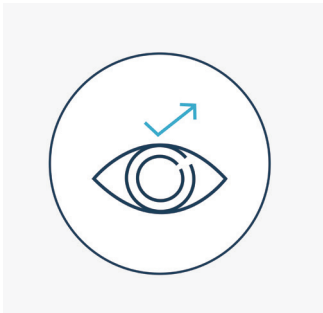

Optimized for MacBook Neo

Slim, purpose-built design allows the MacBook Neo* to close completely and enter sleep mode with the privacy screen attached. A precision webcam notch ensures clear, unobstructed video conferencing without removal.

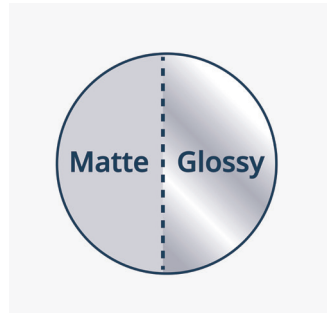

Privacy Focused Viewing Angle

Narrows the visible screen area to $\pm 30^\circ$, helping protect sensitive information from side viewing in classrooms, offices, and public spaces.

Blue Light Reduction

Filters up to 54% of blue light through the matte anti-glare side and up to 49% through the glossy side. Both sides are designed to support visual comfort during extended screen time.

Reversible Viewing Options

The reversible design features a matte side that helps reduce glare and reflections from overhead lighting to improve on-screen visibility, and a glossy side for enhanced clarity. The magnetic attachment makes it easy to switch between sides.

Military-Grade Protection

Meets wipe down (MIL-STD-810H Method 504.3 Contamination by Fluids) testing standards, supporting use in shared and institutional environments.

2-Year Limited Warranty

Professional-grade reliability backed by a 2-year limited warranty.

*Not compatible with other MacBook models or screen sizes.
