ClickSafe® 3-in-1 Combination Laptop Lock

Part numbers: K68105EU, K68106EU (master-coded) | EAN codes: 5028252606110, 5028252606134

One lock for any slot – fits standard T-Bar, Wedge-Shaped or Nano laptop security slots, regardless of brand or generation.

ClickSafe® locking technology allows the lock head to be attached with one hand in a single click.

Special pivot and rotate hinge on the cable allows flexible movement.

1.8m (6 ft.) carbon steel cable with plastic sheath resists tampering, offers peace-of-mind and delivers the same level of cut and theft resistance as thicker cables.

Kensington locks are verified and tested. Each lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.

Register & Retrieve™, Kensington's online combination code registration program allows for quick, secure and easy code retrieval if your code is ever lost or forgotten.

A two-year warranty means you can rest assured knowing you're covered by Kensington, inventor and worldwide leader in laptop security locks.

Master coded combination option (K68106EU) makes combination and lock management simple.

Strength Features – Standard Cable Locks

Locks designed and tested to withstand straight and side pull forces of more than 91kgf (200lbf).

Locks designed and tested to withstand side pull forces of more than 181kgf (400lbf).

Carbon steel cable resists cutting forces of more than 453kgf (1000lbf). Sheathing cover offers security and greater mobility while protecting surfaces from scratches.

Cable rotation, lock attachment and lock tip rotation tested to 8,000 cycles.

Lock heads designed and tested to withstand extreme temperatures ranging from -30° to 65°C.

Lock body tested for materials structural integrity. (Drop damage, hard impact, vibrations and corrosion)
