

Where the present connects to the future

Kensington CH1000 USB-C™ 4-Port Hub

The CH1000 USB-C 4-Port Hub is the simple, easy way to expand the connectivity of your USB-C device. Connect your peripherals like a mouse, keyboard or flash drive using the two USB-A ports, while using the dual USB-C ports to connect a smartphone or tablet that features the new style of port.

Features and benefits:

- **2 USB-A Ports** – expand your device’s productivity capabilities by plugging your traditional USB peripherals like a mouse, keyboard or flash drive into any of these ports
- **2 USB-C Ports** – provides ports to plug in USB-C accessories such as an external hard drive, allowing you to make the most of limited port availability on the host device
- **SuperSpeed data transfer** – using USB 3.1 Gen 1 technology, the hub supports transfer speeds up to 5Gbps, which is 10 times faster than USB 2.0
- **Plug & play operation** – simply plug the expansion hub into your device and it’s automatically ready to go with no need for an additional power source or driver downloads
- **Compact Design** – The small footprint makes it highly portable so you can easily pack it up with you when you’re on the go
