The Professionals' Choice™

ClickSafe® 2.0 Universal Keyed Laptop Lock

Universal Keyed: Part Number: K68102WW | UPC Code: 0 85896 68102 1

Master Keyed: Part Number: K68108M | UPC Code: 0 85896 68108 3

One lock for any slot fits standard T-Bar, nano, or wedge-shaped laptop security slots, regardless of brand or generation.

5mm keying system is common across all of Kensington's latest locks, so there's only one keying system to manage. A master keying option and custom keying solutions allow you to have one key open all locks, and create supervisor-keyed and like-keyed versions.

ClickSafe® locking technology allows the lock head to be attached with one hand in a single click.

A special pivot and rotate hinge on the cable allows flexible movement and easy key insertion.

Patented anti-pick Hidden Pin™ technology and 1.8m (6 ft.) carbon steel cable with plastic sheath resists tampering, offers peace-of-mind, and delivers the same level of cut and theft resistance as thicker cables.

Register & Retrieve™, Kensington's online key registration program, allows for quick, secure, and free key replacement if ever lost or stolen.

Kensington locks are verified and tested. Each lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance, and mechanical resilience.

A five-year warranty means you can rest assured knowing you're covered by Kensington, inventor and worldwide leader in laptop security locks.
