Gold standard performance and strength.

For gold-standard cable performance and strength, look no further than Charge & Sync cables. Great for any application and perfectly suited for Kensington Charge & Sync cabinets, allowing the cabinet door clearance to close completely. Charge, sync videos, music, photos and more. The encased anti-twist abrasion-resistant cable is tested to withstand at least 10,000 cycles of 90° bends. Its compact length (327mm/12.9") helps reduce cable clutter and resists tangles. Copper wire ensures quality and reliability. Available with Lightning or USB-C connectors.
